Tribe Thinclads Begin Season; Take Two Firsts, Five Seconds

The track season brings together every type of athlete existing today. The runners, the men of muscle and the most agile may all choose their event. As a group these athletes combine and a team is born.

Last Wednesday Coach Al Miller took his three week old squad to an Invitational at Jefferson High School in Portland. This was a type of "dummy" meet in preparation for the season to come. There was no team scoring and no awards were given. The most severe competition seemed to be in the running events although 6.0' in high jump and 186.0' in the javelin are good marks. The Indians claimed two firsts. Harry Skandara, who also later claimed a second in the 660, captured a first in the $\frac{3}{4}$ mile with a run of 3:17.6, outclassing all competition. The Dalles Indians also secured a tie for first in the pole vault with 10.0'.

Along with those two firsts, the Indians secured five seconds. Gary Ordway, Sophomore returning let-

terman, took seconds in the high hurdles as well as the low. In the highs Ordway was clocked at 9.3, only .2 off the winning time. Then the relay team of Morioka, Selders, Glenn, and Jones took the final second for The Dalles in the running events. During this furious action Marny Moore was over in the discus area claiming his second for the Redskin thinclads. The winning throw for the discus was 132' and Moore threw a nice 123.3'. This Friday the Indians travel to Hood River for a three way meet which will include Wy'east.

Thirty years ago today, Scranton, Pa., curtain makers called their first strike for fringe benefits.

If all the smelt caught in 1962 were laid end to end across the Sahara Desert . . . think of the stink ! ! !

The Tiddly-Winks Team needs your help!
