Moore Shatters Discus Mark; Relays Next on Track Slate

Junior weightman Marvie Moore lived up to preseason expectations as he shattered the standing school discus mark in the opening meet of the Indian track season at Jefferson High in Portland. Moore hurled the rubber plate 141' 6" to erase Jim Taylor's 1957 mark that stood at 137' 8".

The meet was non-scoring but the Indian thinclads showed strength in several events against Jefferson High. Jeff, incidentally, won the Oregon A-1 Track Championship last spring.

Veteran distance runner Harry Skandera collected two firsts. He won the $\frac{3}{4}$ mile in 3:24.5 and the 600 in 1:31.4. All distances were shortened $\frac{1}{4}$ except for the 100 yard dash. Junior miler Bing Ott won the $1\frac{1}{2}$ mile in 7:55. John Altendorf collected the remaining of the five Dalles' first place finishes with a 10' 6" leap in the pole vault.

Willamette Relays Next

Next on the Indians' track slate is the Willamette Relays. This 14th annual event will lure some

2,000 track athletes. Both college and high school competitors will attend the meet held in Salem this Saturday. Indian track Coach Al Miller expects to take a bus-full of Tribe trackmen.

After competing at Salem, the Indians return home to prepare for the second annual Mid-Columbia Relays to be held here Friday, April 3, at 2:30. The Dalles took the title last year and hopes to defend itself this year and from all indications will do so. Many teams are scheduled to compete including Goldendale, Wy'east, Hood River, Sherman, and Wahtonka.

Craber Back

Veteran trackman Loren Craber will be back in action after sitting out the past several weeks because of sickness. Others who did not compete in the Jefferson meet because of winter sports are Gary Ordway and Bill Todd. Both are lettermen. If The Dalles track squad remains at full strength and individuals come through, the team may be on its way to its best season in many years.

The Sub-district meet will be held in Prineville Saturday, May 23. Hermiston will then host the District meet the following Friday, May 29.

Stats Indicate Close Season
